

Support for upcoming job actions planned by the Saskatchewan Teachers' Federation

- Persons With Children Affected By Job Actions
- Persons Without

Proportion of Total Responses:

Total respondents: n=600

q9. As you may know, the Saskatchewan Teachers' Federation plans to escalate job action after the February break (Feb. 26 onwards) through specific strategies such as rotating one-day strikes in the Battlefords and Prince Albert, alongside a provincewide withdrawal from lunch supervision in an effort to push negotiations. Do you support or oppose these approaches?

Strongly oppose / Somewhat oppose / Neither support nor oppose / Somewhat agree / Strongly agree

q10. Do you have children enrolled in a school being affected by these job actions?

Yes / No

"Persons With Children Affected By Job Actions" inclusive of 'Yes' responses for q10, "Persons Without" inclusive of 'No' responses for q10.

"Oppose NET" inclusive of 'Somewhat oppose' or 'Strongly oppose' responses for q9, "Neutral" inclusive of 'Neither agree nor disagree' responses for q9, "Support NET" inclusive of 'Somewhat support' or 'Strongly support' responses for q9.

All percentages have been rounded to the nearest whole number and may not equal one-hundred (100) percent.

Survey was conducted online via SaskWatch Research from February 18 – February 19, 2024. Visit saskreacts.com for more information.

Basic Disclosure Elements

Basic Disclosure Elements	Details
Research sponsor	Insightrix
Research/Data collection supplier	Insightrix
Population represented	Adults in Saskatchewan
Sample size	n=600
Mode of data collection	Online, part of a public opinion polling survey
Source of sample	Insightrix SaskWatch Research® panel (http://saskwatch.ca)
Respondent compensation	Respondents were given an opportunity to win draws for panel points as an incentive to complete the survey
Type of sample	Non-probability
Start and end dates of data collection	February 18 – February 19, 2024
Margin of sampling error for total sample	Since the research is conducted online, it is considered to be a non-probability proportion sample; therefore, margins of error are not applicable. However, the margin of error can be estimated to be +/- 3.5 percentage points, 19 times out of 20 for questions answered by all respondents.
Are the data weighted?	No. Region, age and gender quotas were set to match the 2021 Canadian census.
